Sunday September 6, 2015

Happy Birthday to us. We have celebrated year #14 a couple of weeks early (as we always do) and had such a good time. Seams!!! like the time has just flown by and here we are starting #15.

We are starting something new - outside of lots of great new classes - instead of a newsletter that just repeats what we have listed on the classes page of our website we will give you News, etc. etc. Lets make this fun, informative and interesting.

Some sad news - Our Rose has passed away. Most of you know Rose from "The Enchanted Garden" and "Crazy Trip Around the World". Rose will be greatly missed.

Our new block of the month, The Storytellers, is coming along. I am almost finished all the blocks and they are sure looking good. It's a lovely, gentle quilt and what great stories about those women authors. Didn't some of them shake up the male author world in their day. All the more credit to those ladies for their perserverance.

I am very excited about our Whatnots Club #3. I just love those smaller pieces and they take so much less time to construct. We will be using Kim Diehl's new line of fabric for this series but will also have some bonus pieces for you exclusive to the store. These kits will not be in the store until the current club is finished.

We have decided not to have a Fat Quarter Frenzy this year, but, will have rolled fat quarter on sale for a limited time.

I just could not resist the look on Maggie Smith's face and the caption. Hope you enjoy the picture and hope you enjoy this new format to keep in touch. I put the picture at the end of the classes page.

Happy Quilting

Lucy
